

FOR IMMEDIATE RELEASE

McMahon Associates, Inc. Shareholders Elect Christopher J. Williams, P.E. to Board of Directors

FORT WASHINGTON, PA, March 22, 2019 – McMahon Associates, Inc., a transportation engineering and planning firm, today announced that Christopher J. Williams, P.E., Vice President and Mid-Atlantic Regional Manager, has been nominated and elected to the firm’s Board of Directors and appointed as a Principal of the firm. Williams has been with McMahon for 23 years and has risen steadily from project management to regional management roles. In January 2019, Chris was promoted to the position of Mid-Atlantic Regional Manager with a responsibility for more than 115 employees, and handling a large and diverse client-base in both public and private sectors. His well-earned promotion is part of the leadership transition and growth within the firm.

Chris has been involved in transportation engineering and planning since 1991 with an emphasis on the interrelationship between land use and multimodal transportation. Chris also led the opening and growth of McMahon’s Chester County office in 2000. Over his career, Chris has conducted numerous traffic engineering assignments and traffic planning studies, ranging from land development traffic impact studies, parking studies, municipal and regional traffic planning studies, preparation of transportation improvement plans, traffic signal operations analyses, land development traffic reviews, PennDOT highway occupancy permit access design reviews, and other traffic studies. He also assists a number of Pennsylvania municipalities, primarily in Chester County, providing traffic engineering review and support services. Chris regularly provides expert witness traffic engineering testimony, as well as transportation-related presentations to a variety of professional and community organizations.

Chris has also established himself in professional association leadership, including previous service as the Vice Chair and Chair of the Transportation Management Association of Chester County (TMACC) Board of Directors, and current service as the Chair of the TMACC Foundation Board. Additionally, he has volunteered and/or maintains membership with other organizations, including the Institute of Transportation Engineers (ITE), Mid-Colonial District and Mid-Atlantic Section, Chester County Engineers, and the Urban Land Institute. Chris also volunteers his time to support STEM activities with elementary school students to inspire future generations of engineers, and he has been instrumental in the McMahon Gives Back program, which allows the firm and our employees to “pay it forward” through involvement in our local communities.

“Chris has been a tremendous asset to our Executive Committee, to the firm, and to our clients. He has proven to be a stellar leader within our company and the transportation industry. It gives me great pleasure to have him bring his practical business knowledge, firm enthusiasm, and broad expertise to our Board,” said Joseph DeSantis, P.E., PTOE, President and CEO of McMahon Associates, Inc. “As our firm has grown, we’ve recognized the importance of grooming the next generation of leaders. Chris is a great example of the caliber of leadership we have been cultivating and it makes me proud to see him attain this important position on the Board of Directors of McMahon.”

About McMahon Associates, Inc.

Since 1976, McMahon Associates, Inc. has specialized in delivering innovative engineering, planning, design and technological transportation solutions to our clients. We have built trusting and lasting relationships by satisfying, and often surpassing, the needs of both governmental and private sector clients. We provide services for transportation projects from planning, to design and permitting, through construction. With more than 200 dedicated professionals in 15 offices along the East Coast, McMahon has the talent, ability and expertise to address any transportation assignment.
