

FOR IMMEDIATE RELEASE

McMahon Associates, Inc. Promotes Robert A. Smith, P.E. to Rhode Island Office Lead

FORT WASHINGTON, PA, February 26, 2018 – McMahon Associates, Inc., a transportation engineering and planning firm, has promoted Robert A. Smith, P.E. to Office Lead for the Rhode Island market. Robert (Bob) Smith has been a Senior Project Manager at McMahon for three years – first in the firm’s Taunton, MA location and now in the Lincoln, RI office – providing project and technical guidance on a wide variety of design tasks including roadways, intersections, ADA compliance, streetscapes and the development of traffic management plans.

Currently, Bob leads the design group in McMahon’s New England region. Under his leadership, this group has grown in terms of staff, skill sets, and the complexity of the projects we have undertaken. As the Office Lead for Rhode Island, he will be responsible for expanding the firm’s market presence and building on the region’s growing list of successfully completed projects.

Prior to joining McMahon, Bob worked at the Rhode Island Department of Transportation (RIDOT) for more than 30 years where he oversaw hundreds of transportation projects from initial design scoping, through the entire design process, all the way to construction. He also worked closely with elected officials, industry leaders and the general public to implement the State’s Transportation Improvement Program (TIP).

“Bob Smith has been instrumental in growing the Rhode Island office in terms of staff, workload and services,” said Gary McNaughton, Vice President and Regional Manager – New England. “Bob’s strong leadership skills will enhance McMahon’s continued service in providing innovative transportation solutions throughout Rhode Island.”

“As McMahon’s Rhode Island office lead I plan to continue to grow our client base throughout the state, with the goal of our firm becoming the ‘go-to’ transportation engineering firm for State agencies, municipalities and private firms,” said Robert A. Smith, Rhode Island Office Lead. “We have built an incredible team of professionals serving Rhode Island and I am excited for the opportunities we have in front of us.”

About McMahon Associates, Inc.

Since 1976, McMahon Associates, Inc. has specialized in delivering innovative engineering, planning, design and technological transportation solutions to our clients. We have built trusting and lasting relationships by satisfying, and often surpassing, the needs of both governmental and private sector clients. We provide services for transportation projects from planning, to design and permitting, through construction. With more than 150 dedicated professionals in 14 offices along the East Coast, McMahon has the talent, ability and expertise to address any transportation assignment.
